- User Guide

System Requirements

Hardware

- iPad
- Mac Bluetooth enabled device

Operating System

- Mac OS X v10.4 or later

Installing the Batteries

- 1 Remove the battery cover located on the bottom of the keyboard.
- 2 Insert the supplied batteries, making sure that the positive (+) and negative (-) ends of each battery match the polarity indicators inside the battery compartment.

Battery Life Indicator

- Battery life indicator will blink twice every second when the power level drops below 15%. Replace the batteries as soon as possible.
- Keyboard will shut down when power level is below 10%.

Establishing the Connection

1. Turn on the keyboard by sliding the power button to the ON position.
2. Switch ON the Bluetooth function of your iPad.

3. Press the Connect button on the back of your Targus Bluetooth Wireless Keyboard to enable discovery mode. The low power indicator light will flash blue when the keyboard is in discovery mode.
4. Once the Bluetooth keyboard is listed as a found device in the bluetooth menu on the iPad, tap on the name and you will be prompted to enter a pass key as shown.

5. Enter the passkey shown on the pop up message, followed by the enter key.
6. Bluetooth Keyboard is now connected with your iPad and the blue light will stop flashing.

Using the Hot Keys

Key	Function
	Home Screen
	Search
	iPad will enter Photo Frame mode
	Show and hide the Keyboard on your display
	Rewind or go to previous song, movie, or slideshow
	Play or pause songs, movies, or slideshows
	Fast Forward or go to next song, movie, or slideshow
	Mute the sound on the iPad
	Decrease the volume on the iPad
	Increase the volume on the iPad
	Lock your display

FOR MAC USER, PLEASE SET UP YOUR OWN HOT KEYS INSIDE "KEYBOARD SHORTCUT" OF "SYSTEM PREFERENCES".

Bluetooth Connection: Mac

1. Go to the Bluetooth icon located on your desktop or in the system bar and click the icon to begin setup. Select "Turn Bluetooth On" to activate the Bluetooth function on your Mac.
2. Scroll down the list and select "Set up Bluetooth Device..."
3. The Bluetooth Setup Assistant will begin. Please follow the on-screen instructions.
4. Select "keyboard" and click continue to proceed with setup. Your keyboard will need to be in "discovery" mode to connect.
5. Press the Connect button on the back of your Targus Bluetooth Wireless Keyboard to enable discovery mode. The low power indicator light will flash blue when the keyboard is in discovery mode.
6. Your computer will begin to search for the keyboard. Once the keyboard is found, it will show up in the list. Highlight "Bluetooth Keyboard" and press continue.
7. The Bluetooth keyboard will now begin pairing. Click continue to proceed.
8. Congratulations. Your Bluetooth keyboard is setup and ready to use. You can choose to set up another device or click Quit to exit setup.

Product Registration

Targus recommends that you register your Targus accessory shortly after purchasing it. Go to:

<http://www.targus.com/registration.asp>

You will need to provide your full name, email address, country of residence and product information.

Warranty

Targus warrants this product to be free from defects in materials and workmanship for one year. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to devices; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

Compliance with 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007

Declaration of Conformity

Hereby, Targus, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
